Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-4, 6-14 and 20-21 have been considered but are moot in view of the new ground(s) of rejection. On February 2, 2004, a conversation with the attorney, Mr. Michael Haas, discussed changes to more clearly define the claimed invention. These changes are stated in detail in the rejection stated below.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 6-14 and 20-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Note that these changes are a result of the conversation with the attorney as recited above. Considering independent claim 1 and 21 and its respective dependent claim(s), if any, it should be clearly recited that first and second housings having plurality of cavities with complimentary configurations, such that a cavity from the first plurality of cavities mates with a corresponding cavity from the second plurality of cavities. Also, it should be clearly recited that a first conduit is in operative flow communication with the first and second housing members and being in an assembled relation with one another. It should be clearly recited that the first and second plurality of cavities define first and second chambers. Finally, it should be clearly stated that the pressure generating element and the valve being disposed in the first and second chambers, respectively, and being in operative flow

communication through mating and complimentary conduit portions defined by the first and second housing members.

Clarification of the above noted observations is requested. If the claims are amended in the manner as recited above, this application would appear to be in condition for allowance.
